About us

About LEBENLANG

Welcome to LEBENLANG – your reliable partner for high-quality household and kitchen appliances. Our products combine stylish design, premium quality, and fair pricing. The name LEBENLANG stands for our promise to support our customers in the long term and to simplify their everyday lives in a sustainable way.

Our Values

LEBENLANG is more than just a brand. As an owner-managed company rooted in Cologne, we combine personal customer care with excellent infrastructure. Our team develops and designs the products in Germany but is also inspired by our branches in the USA and Vietnam. This naturally includes fair working conditions and a strong focus on functionality and durability. We rely on thoughtful, practical solutions and timeless modern design that offers true added value for the customer.

Our customer service is a key component of our offering. With a multilingual team based directly in Germany, we provide competent, individual, and helpful support. Customer satisfaction is our top priority. That's why we take feedback seriously and continuously work to improve our offering.

Global yet Local

Although we are firmly rooted in Cologne, we think globally. With locations in the world cities of Hanoi and Miami, we are internationally positioned and offer our products in Europe, Asia, and North America. This allows us to combine the familiarity of a local company with the reach and innovative strength of a global player.

Our Promise

Our founders, Roman Kautz and Lennart Weifenbach, are convinced that every customer deserves full attention. With LEBENLANG, we offer not only high-quality products but also a completely positive customer experience that helps make everyday life easier and more enjoyable for our customers.

LEBENLANG is your reliable partner for a fulfilling life. Our goal is to promote our customers' well-being every day – and preferably for a lifetime.
